

*51% corporate directors view cyber threats as a serious risk to their companies, indicating a growing awareness at the board level.*

*90% Of companies estimate that a cyberattack will have serious negative consequences on their business*

## **AWARENESS TRAINING FOR CORPORATE BOARDS**

***Cybersecurity is no longer just an IT issue—it's a business survival issue.***

***The course will provide the training and tools for informed oversight and strategic alignment that protects the company's assets, reputation, and long-term viability. It will provide an overview of the current cybersecurity landscape, cover legal and regulatory requirements, and identify where and how boards shall and can make a difference.***

**[REGISTER HERE](#)**

**PRICE: 2000 €**

***NIS2 art.20, p.2:*** Risk management measures implementation are management overseen

***NIS2 art.20, p.4:*** The members of the management bodies follow training (in order that they gain sufficient knowledge and skills to enable them to identify risks and assess cybersecurity risk-management practices and their impact on the services provided by the entity)

## STEVE PURSER

Steve Purser has **over 30 years' experience** in the cybersecurity industry. Between 1993 and 2008, he held various **CISO** positions with major financial institutions. In 2008, he joined the EU Cybersecurity Agency (**ENISA**), where he was Head of Operations for 15 years. Steve is now the **Chief Technology Officer** of **Cyen**.
